2017 SMAhome Guidebooks

★ Bonus distribution (Bonus distribution at shows and events may shift without prior notice, due to logistics or show organisers' changes.)

The quarterly published guidebook offers guidance for the professionals to source innovative products from the competent B2B partners. The definitive list of original manufacturers highlights their special strengths to provide comprehensive smart home solutions.

Regular columns in the Guidebook

- **Cover story:** global innovators and leaders provide insights into how long-term business is built alongside best practices and growth strategies.
- **Features:** feature stories on timely industry topics, trending products and technologies driving positive changes for the smart home.
- **Insights:** opinion leaders explore topics and solutions including market demands, business strategies and innovative practices.
- **Products:** revealing innovative products catering to the home needs of security, ambient assisted living and energy management.
